CHETHLA SAI TEJA

Chennai, India | +91 6303985344 | saitejachethla30@gmail.com
LinkedIn: linkedin.com/in/chethla-sai-teja-551534331 | GitHub: github.com/saitejachethla30

PROFESSIONAL SUMMARY

B.Tech Computer Science Engineering (Artificial Intelligence) student with hands-on experience in full-stack web development, backend integration, and AI/ML concepts. Skilled in Python, Core Java, JavaScript, React.js, Flask, REST APIs, SQL, and MySQL. Experienced in developing responsive web applications, implementing authentication and role-based workflows, and building data-driven solutions. Strong foundation in problem solving, software development, Explainable AI, Natural Language Processing, Differential Privacy, and spatial analytics.

EDUCATION

Dr. M.G.R. Educational and Research Institute, Chennai | Expected 2027

B.Tech – Computer Science Engineering (Artificial Intelligence) | CGPA: 8.69 / 10.0

TECHNICAL SKILLS

Programming Languages: Python, Core Java, JavaScript, SQL

Frontend Development: HTML5, CSS3, JavaScript, React.js, Responsive Web Design, DOM Manipulation

Backend Development: Flask, REST APIs, Backend Integration

Databases: MySQL, SQL

AI / Machine Learning: Machine Learning, Natural Language Processing (NLP), Explainable AI (SHAP), Differential Privacy, Spatial Analytics

Tools & Platforms: Git, GitHub, Streamlit, Leaflet.js, Claude, Lovable, Base44

Core Concepts: Cloud Computing Fundamentals, UI/UX Fundamentals, Object-Oriented Programming, Web Application Development

PROJECTS

Digital Subsidy & Grant Administration Platform

- Developed a full-stack platform for managing subsidy and grant applications across eligibility, verification, approval, and disbursement stages.
- Implemented REST APIs, JWT-based authentication, and role-based authorization for controlled access across administrative roles.
- Integrated MySQL database functionality for application and workflow data management.
- Designed an automated application workflow with status tracking across different administrative stages.
- **Technologies:** REST APIs, JWT, MySQL

Bank Management System

Java, HTML, CSS, Bootstrap, JavaScript

- Developed a banking application supporting account creation, account enquiry, deposits, and withdrawals using Java Object-Oriented Programming.
- Implemented menu-driven banking operations with input validation and transaction management.
- Built a responsive web dashboard for account search, transaction management, and balance tracking.
- Integrated interactive Bootstrap components to improve the usability of the web interface.
- **Technologies:** Java, HTML, CSS, Bootstrap, JavaScript

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- Published and presented the SafeCity AI research project, an AI-driven smart-city safety system integrating Differential Privacy and Explainable AI.
- Participated in college-level hackathons and AI/ML workshops focused on real-world problem solving.
- Completed 60+ hours of cloud computing training.

CERTIFICATIONS

- National Conference – Research Paper Presentation, 2026
- NPTEL – Mobile Virtual Reality & Artificial Intelligence, 2026
- be10x – AI Tools Workshop, 2026
- TCS iON – Certificate of Achievement, Introduction to Soft Skills, 2026
- Certification Program – Introduction to Data Driven AI and Generative Intelligence
